

# Vaccinations

The staff at the DeZavala-Shavano Veterinary Clinic is dedicated to providing optimal care for your pet. Vaccinations are an important part of maintaining the health and quality of life of your pet. We are aware each pet is unique in their life's experiences; therefore, each pet can be exposed to different diseases. Please answer the following questions so we can vaccinate your pet against the diseases (s)he needs today.

Name of pet: \_\_\_\_\_ Today's date: \_\_\_\_\_

	Yes	No
Are you in the military?	<input type="checkbox"/>	<input type="checkbox"/>
Does your pet travel with you out of the country or to Hawaii?	<input type="checkbox"/>	<input type="checkbox"/>
Does your pet board at a kennel anytime during the year?	<input type="checkbox"/>	<input type="checkbox"/>
Do you take your pet to the groomer?	<input type="checkbox"/>	<input type="checkbox"/>

Has your cat ever been in a fight with an unknown cat?	<input type="checkbox"/>	<input type="checkbox"/>
Are there any known FIP (feline infectious peritonitis) or FIV (feline immunodeficiency virus) cases in your neighborhood or household?	<input type="checkbox"/>	<input type="checkbox"/>

**We strongly recommend a 1-year rabies vaccine for all of our feline patients due to the risk of vaccine induced fibrosarcoma. A 3-year rabies vaccine is available. Please ask the doctor to determine which vaccine is right for your pet.**

Thank you for your time to answer these questions. We will review your answers to determine the optimal vaccine protocol for your pet.
