

C. Kennel and Other Clinic Maintenance Duties

Kennel Maintenance

Thoroughly scrub kennel floors. The mop is located in the bucket near the bathtub or is placed on the fence outside.

Clean the pet bath tub by spraying off with water.

Clean the pet bath tub and the dish sink with SoftScrub at least once a week.

Sweep and hose down patio with water hose.

Refill spray bottles, soap dispensers, and shampoo.

Keep sink in kennel area clean.

Keep bowls organized in cabinet above the sink.

Other Clinic Maintenance

Sweep and mop the entire Clinic in the evening. Use bleach in mop water. Specific areas may be cleaned as needed during the day.

Make sure the mop bucket is empty before you leave for the day. Change the mop head every 3 to 4 days.

Use disinfectant spray to clean top of scale each day. Sweep under scale every 3 or 4 days.

Organize boarder foods and other items left with pets.

Clean underneath deep freeze in kennel area.

Distribute leashes around the Clinic.

Refill soap dispensers around the Clinic.

Check and refill paper towel holders around the Clinic.

Clean door frames, doors, walls, baseboards, and the front glass doors and windows.

Clean monument sign in front of Clinic as requested.
