

DeZavala-Shavano Veterinary Clinic Health and Safety Training Employee Quiz

Staff Member Name: _____

Date: _____

1. Container Labeling

During your work shift you notice a container of alcohol buffered 70% does not have a label on it. It is obvious this is not the original container the product came in. How would you properly label this secondary container? If needed, refer to the SDS for the product.

(Fill in label information in the box below)

2. Safety Data Sheets

You were drawing up some Diazepam injectable when a pet jumped up on you and caused you to drop the vial on the floor. The vial shattered and now you have Diazepam liquid on the floor.

Which item is NOT a proper clean-up method for cleaning the Diazepam off the floor? (Refer to SDS for product if needed.)

- A. Wear latex gloves and splash goggles
- B. Dilute with water and mop up
- C. Absorb with inert dry material and discard in appropriate waste container
- D. Place the collected spilled material in the toilet

3. Personal Protective Equipment

While administering Mitaban dip to a pet, the pet flicked its fur and splashed the dip into one of your eyes. What do you do?

- A. Rub my eyes until the burning goes away
- B. Yell for somebody to call an ambulance
- C. Flush out the eye using the eyewash station
- D. Put saline drops in my eye

4. Safe Lifting

Mr. Jones drops off his 55lb lab mix at the Clinic for an annual exam. He has approved for the pet to have its heartworm and fecal screen done in addition to vaccinations. The best way to get the blood and fecal matter you will need to run the tests is to put the pet up on the exam table. What do you do? (Circle all that apply.)

- A. Lift the pet up onto the table by yourself
- B. Seek help from another staff member to lift the pet
- C. Bend over at the waist and pull the pet up by the mid-section
- D. Squat down, grab the pet close to you, and use your legs to lift the pet

5. Preventing Slips, Trips, and Falls

Mrs. Brown brings her pet in one morning for an appointment. The pet decides it likes the Clinic so much that it marked its territory with urine on the floor. What do you do? (Circle all that apply.)

- A. Leave the mess there to be cleaned up at the end of the work day when the floors are mopped
- B. Spray disinfectant on the mess and use paper towels to wipe it up
- C. Mop the soiled area to clean up any remaining residue.
- D. Place the Wet Floor sign by the freshly cleaned area

6. Caution Around Pets

Mrs. Smith brings Damien in to board for the weekend and asks that he get a steroid shot as he is itching again. You notice on the pet's record that Damien does not like men and may bite. What do you do? (Circle all that apply.)

- A. Muzzle the pet
- B. Have a male co-worker help the pet anyway as it'll be therapeutic for the pet
- C. Write the warnings from the record on the pet's cage card
- D. Run up to the pet and give it a big hug without warning

7. Job Hazard Assessment

What is the purpose of having a Job Hazard Assessment?

- A. To provide staff members with possible exposures they may encounter
- B. To inform staff members of the any protective equipment they may need to use for a task
- C. To give me something to read to help me with my insomnia
- D. Both A & B

8. Emergency Action Plan

Which is NOT an element of the Emergency Action Plan?

- A. Run out of the Clinic and down the street yelling “fire” while pushing everyone out of your way
- B. Retrieve the latest IntraVet backup disk
- C. Shut off and secure oxygen tanks
- D. Extinguish the fire that just started and is small as you are trained on using the fire extinguisher

9. Fire Prevention Plan

What is the best way to prevent a fire in the Clinic? (Circle all that apply.)

- A. Keep oxygen tanks turned off and stored properly when not in use
- B. Turn off the coffee pot before leaving for the day
- C. Keep boxes piled up in the hallway
- D. Throw away trash at the end of each work day

10. Other Health and Safety Information

True or False

Keeping food and water bottles in the refrigerator with the vaccines and test kits is safe.
